DETAILED ACTION

Allowable Subject Matter

1. Claims 1,3-13 and 15-21 are allowed over the prior art of record.

2. The following is an examiner's statement of reasons for allowance:

As per the independent claims, the claim recitations pertaining to the detailed calculation of the error term for an acoustic localization of a sound source is not explicitly taught by the prior art of record.

A representative piece of art, Kiyohara et al (IEEE, "A Microphone Array System for Speech Recognition) teaches calculating a delay associated with the differential arrival time and calculating a SNR number in a microphonic array apparatus, and modifying the gains such that the signal is optimized. However, Kiyohara et al does not explicitly teach the claimed calculation in the independent claims. Furthermore, it would not have been obvious to one of ordinary skill in the art of microphone sensors to modify the teachings of the prior art of record to obtain the recited limitations of the independent claims as noted above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
